Room Kit Mini

The Room Kit Mini is ideal for huddle spaces with three to five people because of its wide 120-degree field of view, which allows everyone in a huddle space to be seen. It also offers the flexibility to connect to laptop-based video conferencing software via USB. The Mini is tightly integrated with the industry-leading Cisco® Webex platform for continuous workflow, and can register on premises or to Cisco Webex in the cloud.

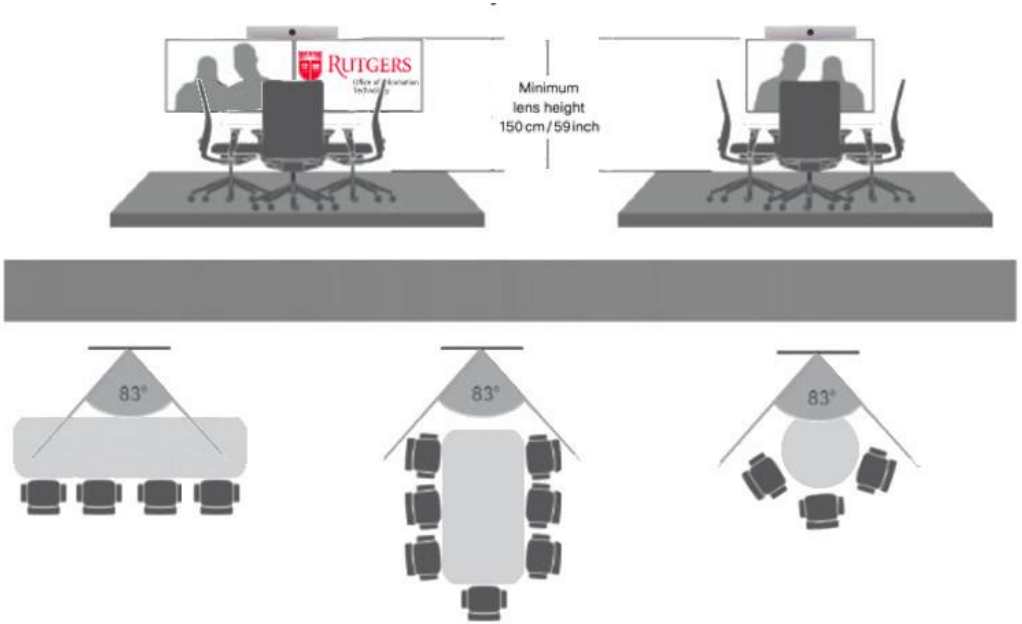
Features and Capabilities

- Camera and codec in a single compact device that sits on top of your standard flat-panel display
- A wide-angle field of view that provides exceptional visibility, and 2x optical zoom.
- Cisco Intelligent Proximity support for content sharing to mobile devices and wireless sharing from laptops (Macs and PCs)*
- Wireless Sharing with Cisco Proximity
- Ability to provide video, microphone, and speakers over one USB cable to a connected computer 720p video resolution

Basic Package

- **$6,000.00**
- Price Estimate is for planning and information purposes only and is not a binding offer from Cisco.
- Price Estimate does not include room modifications.
- SmartNET Yearly Recurring Charges are required to obtain security and system updates.

Room Kit



The Room Kit includes camera, codec, speakers, and microphones integrated in a single device. It offers sophisticated camera technologies that bring speaker-tracking capabilities to small conference rooms and spaces that seat up to seven people.

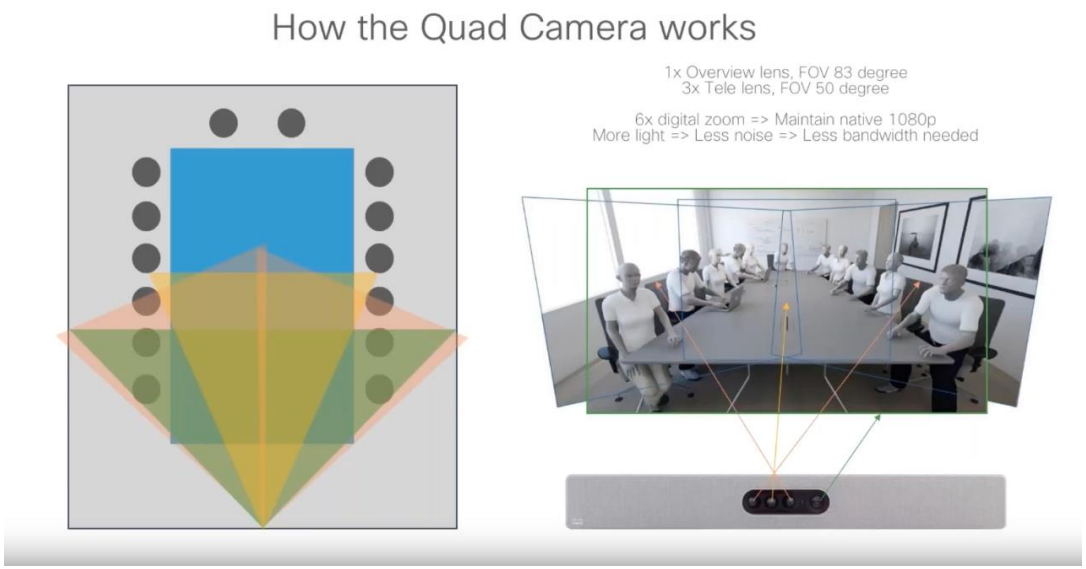
Features and Capabilities

- Unmatched video and audio experience customers have come to expect from Cisco
- Intelligent views to smaller rooms with a discreet, integrated camera
- Great audio experience with integrated microphones and speakers
- Supports dual screens for video and content
- Supports dual content sources for local meetings
- 4K content sharing (local 30 fps; remote 5 fps)
- Share content via wire (HDMI) or wireless (Cisco Proximity)

Basic Package

- **$13,000.00**
- Price Estimate is for planning and information purposes only and is not a binding offer from Cisco.
- Price Estimate does not include room modifications.
- SmartNET Yearly Recurring Charges are required to obtain security and system updates.

Room Kit Plus



A powerful collaboration solution that integrates with flat-panel displays to bring more intelligence and usability to your medium to large-sized meeting rooms up to 14 people.

Features and Capabilities

- Unmatched video and audio experience customers have come to expect from Cisco
- Powerful, integrated cameras deliver intelligent view capabilities, such as automatic framing and speaker tracking
- Great audio experience with integrated speakers
- Supports dual screens for video and content
- 4K content sharing (local 30 fps; remote 5 fps)
- Share content via wire (HDMI) or wireless (Cisco Proximity)

Basic Package

- **$17,000.00**
- Price Estimate is for planning and information purposes only and is not a binding offer from Cisco.
- Price Estimate does not include room modifications.
- SmartNET Yearly Recurring Charges are required to obtain security and system updates.

Room Kit Pro

The Room Kit Pro Codec acts as the audio and video engine to incorporate high-definition video collaboration applications into large meeting rooms, boardrooms and purpose-built or vertical application rooms.

Features and Capabilities

- 6 simultaneous video inputs that can be combined individually on all 3 outputs
- 3 4K video outputs
- Ideal for team-based collaboration, boardrooms, meeting rooms, and industry applications
- Connect up to 8 microphones directly to the codec
- Full-duplex audio with high-quality stereo sound
- 4K content sharing (local 30 fps; remote 5 fps)
- Share content via wire (HDMI) or wireless (Cisco Proximity)

Basic Package

- $40,000.00
- Price Estimate is for planning and information purposes only and is not a binding offer from Cisco.
