

Tech resources for Rutgers faculty and staff—May 2026

## Master digital accessibility with summer training sessions

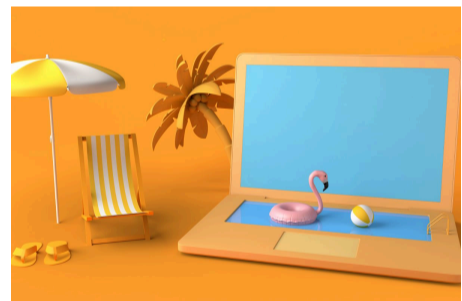

The Office of IT Accessibility will host digital accessibility training sessions throughout the summer, covering updates to ADA Title II requirements, strategic planning, and more. Visit the [training and workshops page](#) to register for a session.

## Upskill in Adobe Express, Acrobat, and more via virtual trainings

Want to build more confidence with Adobe tools? Whether you're an advanced user or a beginner, Adobe's Education Institute has a learning path for you. Register for upcoming virtual, hands-on training sessions or receive recordings later via [Adobe's event website](#).

## Connect to Rutgers tech during your travels

Explore this [Rutgers IT newsroom story](#) to review the tech services that you can access while on the go. Learn how to use Microsoft apps, join an online meeting, and more during your downtime.

## Don't fall for cybercriminals' tricks

Receive a suspicious message from a dean, department chair, or IT staff? Pause and verify all communications, even from people or groups that you know. Please visit [our Phish Bowl webpage for tips and videos](#) on [how to spot and report scams](#).
