

Check a link on your mobile device

See a funny link in your inbox or chats?
Confirm it's okay to click.

Don't tap the link.
Instead, press and hold.

You'll see the full link text
pop-up on your screen.

Look at the link for misspelled
words, numbers replacing
letters, and the right source
name (ex. "rutgers.edu").

go.rutgers.edu/phish-bowl
