

Tech resources for Rutgers faculty and staff—April 2026

AI tools available to you: Google Gemini and Microsoft Copilot

Did you know that Rutgers provides access to powerful AI tools? [Rutgers' AI assistants](#) include features commonly found in paid platforms. For example, [Microsoft Copilot](#) offers ChatGPT-based capabilities, and [Google Gemini](#) provides image generation and advanced research tools.

Students, faculty, and staff can access these services using their Rutgers accounts. [Visit the AI at Rutgers website to learn more.](#)

Be sure your Duo is up-to-date

Duo Mobile will no longer provide updates or support for devices running iOS 16 or Android 11 and older. You can still use Verified Duo Push and passcodes, if Duo is already installed on your device. For the best security and experience, we recommend [updating to the latest mobile OS](#).

Spot scams before they strike: Take updated cybersecurity training

The Rutgers Information Security Office is offering [updated cybersecurity awareness training modules](#), available through IT security company KnowBe4. Learn how to recognize common cyberattacks, whether it's a fraudulent push notification, a suspicious email, or a questionable text message.

Up your tech skills during your down time

Ready to learn more about Adobe, Microsoft, Qualtrics, or other tech tools? Rutgers has access to many remote and on-demand trainings offered by these vendors. Visit the [Tech Training webpage](#) to learn more.
